

ABDUL AZIZ

Software Developer

085-155-388-644 abaz.my.id@gmail.com abaz-id abazdev.com

ABOUT ME

Software developer with expertise in programming languages such as JavaScript, TypeScript and Dart, particularly in building applications using frameworks like Flutter. Additionally, I have extensive experience in infrastructure management with Docker and Kubernetes, enabling me to support teams in delivering scalable, efficient, and reliable solutions.

Driven by a passion for continuous learning, I actively stay up-to-date with the latest technological advancements and consistently strive to implement them in the projects I work on. I firmly believe that sharing knowledge is the best way to grow together, which is why I frequently contribute through training sessions, tech communities, and team discussions.

EDUCATION

2024 - Expected 2027	Informatics Engineering Currently pursuing a D3 in Informatics Engineering, studying various aspects of information technology, including programming, databases, computer networks, and software development with the latest technologies.
July - Sept 2022	Fullstack Javascript Developer Attended a Fullstack JavaScript Developer bootcamp in Bandung, learning JavaScript, HTML, CSS, PostgreSQL, Sequelize, MongoDB, Mongoose, React, React Native, Vue, and GraphQL.
June 2018 - 2022	Power Electronics & Communication Engineering Studied power electronic systems, digital communication, signal processing, and how IoT technology can be applied in automation, industrial control, and smart device networks.

EXPERIENCE

Sept 2023 - Current	Software Developer Developing applications for government agencies such as the Ministry of Defense, Ministry of Foreign Affairs, POLRI, and TNI, covering system design, development, and maintenance to support their operations. The company is based in Jakarta but operates remotely.
May 2023 - Current	Frontend Developer Working as a freelancer at PPSDM Migas, developing an application for the certification process organized by PPSDM Migas, designed to streamline, manage, and accelerate various stages involving participants and relevant materials. PPSDM Migas is a government institution based in Blora, but the work is done remotely.

SKILLS

- Javascript
 - Typescript
- Dart
 - Docker
- Kubernetes
